HP EliteBoard G1a Next Gen AI PC (D72V9LT)

Overview

Desktop-grade power. Keyboard-sized freedom

The EliteBoard G1a AI PC delivers the AI performance of a desktop PC that adapts to how you work — packed into an ultralight, ultra-serviceable keyboard. The AMD Ryzen processor[2] provides up to 50 TOPS NPU[3] of local AI on a device you can connect to any monitor[4] with a single cable, extending productivity beyond one desk.

Minimalism that maximizes your workflow

An incognito desktop AI PC with dual mics and speakers all built into a sleek keyboard designed to simplify your setup without clutter and tangled wires.

Adaptable AI that works like you do

Take on demanding workloads with up to 50 TOPS[3] of local AI to analyze, create, and optimize with an optional built-in battery for seamless flexibility.[7]

Protection that starts before the threat

HP Wolf Security for Business[5] detects and self-heals BIOS attacks and provides future-ready protection against quantum computing attacks.

Designed with purpose

Craftsmanship made with 70% recycled plastics[8] in the enclosure and easily serviceable components all in packaging with certified or recycled sources of paper.[10]

Features

HP recommends Windows 11 Pro for business

Work anywhere without compromising on performance with Windows 11 and HP collaboration, security, and connectivity technology. Summarize and rewrite content, get relevant content recommendations, and stay organized with Microsoft Copilot.[1]

Calculated comfort in every keystroke

Engineered for an elite typing experience with backlit, larger row keys for quick, clickable controls, optimized for long, rigorous typing sessions.

Engineered for desk-to-desk endurance.

Built to survive those unexpected spills and scrapes, the HP EliteBoard G1a PC is equipped with a spill-resistant, easy-clean keyboard. Designed to pass MIL-STD 810 tests so you stay resilient even in demanding environments.[6]

No downtime drama, just snap-in solutions

Future-ready with easily replaceable top-mounted keyboard, RAM, SSD, and optional battery. This modular design build slashes costs and simplifies maintenance of your device.

Always audio ready, anywhere.

Bring seamless desk-to-desk collaboration to every work session and clarity to every call with integrated dual speakers and microphones tuned by PolyStudio, delivering premium audio that transforms your workspace into a conference room.

Fast and efficient wireless LAN

The portability of your PC and the reliability of a fast connection determines where you can work. Get a fast and reliable connection in dense wireless environments with gigabit data rate Wi-Fi 7.[9]

[2] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed

[3] Features and software that require a NPU may require software purchase, subscription or enablement by a software or platform provider, and third party software may have specific configuration or compatibility requirements. Potential NPU inferencing performance varies by use, configuration, and other factors.

[4] Requires compatible display with USB-C® connection. Compatible display sold separately.

[5] HP Wolf Security for Business requires Windows 10 or 11 Pro and higher, includes various HP security features and is available on HP Pro, Elite, Workstation, and RPOS products. See product details for included security features.

[7] Optional feature must be configured at time of purchase.

[8] Recycled plastic content percentage is based on the definition set in the IEEE 1680.1-2018 EPEAT standard.

[10] Recycling capabilities may vary depending on your location. Please refer to your local recycling program for detailed information.

[1] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 11 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com. Microsoft Copilot requires Windows 11. Some features require an NPU. Timing and availability will be dependent on Microsoft and varies by market and device. Requires Microsoft account to log in. Where Copilot is not available, the Copilot key will lead to the Bing search engine. See http://aka.ms/WindowsAIFeatures.

[6] MIL STD 810 testing is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Any accidental damage requires an optional HP Accidental Damage Protection Care Pack.

[9] Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 7 (802.11BE) functionality requires compatible Windows 11 OS, compatible processor, and separately purchased Wi-Fi 7 router to support backwards compatibility with prior 802.11 specs. Available in countries where Wi-Fi 7 is supported. The specification for 802.11BE is a draft specification and is not final. If the final specification differs from the draft specification, it may affect the ability of the device to communicate with other 802.11BE devices. Wi-Fi® supporting gigabit data rate is achievable with Wi-Fi 7 (802.11BE) when transferring files between two devices connected to the same router. Requires a wireless router, sold separately, that supports 160MHz channels.
