HP ProDesk 2 SFF G2a Desktop PC (DD6P7AT)

Overview

Tailored for hybrid teams with secure, scalable performance

Drive your business forward on the HP ProDesk 2 SFF G2a — compact a desktop built for modern work. High-speed AMD performance[2] drives productivity, scalable design adapts as your business evolves, and multi-layered security safeguards your most confidential data. All in a subtle form factor that simplifies serviceability and supports hybrid teams.

Compact speed and storage for scaling your business

Deliver consistent speed and reliability with AMD Ryzen 7 processors[2] (45W), optional WiFi 7[3,4] and available 4 TB SSD[5] of responsive storage.

Layered defense against physical

Hardware TPM encryption, prevent firmware breaches with BIOS self-recovery, and fortify hardware with a padlock loop and optional intrusion sensor.[5]

Scalable design meets quick serviceability

Three native video ports, Tool-less chassis, and multiple expansion slots make upgrading and servicing your device simple.

Designed with purpose

Designed with 63% post-consumer recycled plastic[6], EPEAT Climate+ Gold registered[7] and ENERGY STAR®[8] and TCO 10 certified.[9]

Features

HP recommends Windows 11 Pro for business

Work anywhere without compromising on performance with Windows 11 and HP collaboration, security, and connectivity technology. Summarize and rewrite content, get relevant content recommendations, and stay organized with Microsoft Copilot.[1]

Supports smooth multitasking with multi-display setups

Extend your
view across multiple screens for streamlined multitasking with multiple display ports, including 1 HDMI and 2 DP ports, so you can keep tabs on a variety of tasks and apps with less clicking and scrolling.

[2] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD's numbering is not a measurement of clock speed.

[3] Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 7 (802.11BE) functionality requires compatible Windows 11 OS, compatible processor, and separately purchased Wi-Fi 7 router to support backwards compatibility with prior 802.11 specs. Available in countries where Wi-Fi 7 is supported. The specification for 802.11BE is a draft specification and is not final. If the final specification differs from the draft specification, it may affect the ability of the device to communicate with other 802.11BE devices.

[4] Wi-Fi® supporting gigabit data rate is achievable with Wi-Fi 7 (802.11BE) when transferring files between two devices connected to the same router. Requires a wireless router, sold separately, that supports 160MHz channels.

[5] Optional feature that must be configured at the time of purchase.

[6] Recycled plastic is expressed as a percentage of the total weight plastic. Post-consumer recycled is based on the definition set in the EPEAT criteria.

[7] EPEAT tier levels may vary by country. See www.epeat.net for registration status and tier levels by country.

[8] ENERGY STAR® certified products meet strict energy efficiency guidelines set by the U.S. Environmental Protection Agency. ENERGY STAR® and the ENERGY STAR® logo are registered trademarks of the U.S. Environmental Protection Agency.

[9] TCO Certified is an ISO 14024 Type 1 sustainability label for IT products. Compliance with all criteria is independently verified.

[1] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 11 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com. Microsoft Copilot requires Windows 11. Some features require an NPU. Timing and availability will be dependent on Microsoft and varies by market and device. Requires

Microsoft account to log in. Where Copilot is not available, the Copilot key will lead to the Bing search engine. See http://aka.ms/WindowsAIFeatures.
