Magnetic Privacy Screen For 13.3-Inch 16:9 Laptop, Reversible Filter, Computer Screen Protector, View Angle 60 deg (+/- 30 deg), TAA Blue Light Shield

Product ID: 133LM-PRIVACY-SCREEN

This magnetic laptop privacy screen features a universal design and is compatible with 13.3" laptops with a 16:9 aspect ratio. It effectively obscures sensitive on-screen information, ensuring the screen's center and outer edges are shielded from unwanted views.

This TAA-compliant privacy filter is a convenient and cost-effective solution to protect confidential data on a 13.3-inch laptop screen. The security shield obscures the sides of the screen while providing a clear viewing angle of +/-30 degrees from the center, resulting in a total visible area of 60 degrees.

The privacy screen protector is reversible, with an anti-glare matte side for environments prone to glare and a high-gloss side that helps retain color vibrancy.

Use the metal adhesive strips to install the privacy protector onto the bezel. Quickly remove the filter when sharing content or switching between the matte or glossy sides. The universal design features a large cutout that will not interfere with the integrated camera or sensors around the display.

Reduce eye strain and improve visual comfort with this blue light-reducing privacy shield. It blocks up to 51% of the blue light emitted from the display in the 380nm - 480nm wavelength range.

Certifications, Reports and Compatibility

Applications

Features

• PROTECT SENSITIVE VISUAL DATA: Magnetic privacy screen features Microlouver technology that obscures your 13.3" laptop display when viewed from the sides, preventing visual eavesdropping; 60 deg viewing angle (+/- 30 deg from the center); TAA-compliant

• FOR 13.3" LAPTOPS: Universal design fit most laptops with 13.3-inch displays and 16:9 aspect ratio; Dimensions of 11.6x6.7x0.01in (29.6x17.2x0.04cm); Reversible security filter will not interfere with the integrated camera or sensors around the display

• QUICK & EASY APPLICATION: Install the magnetic strips on the laptop bezel to snap the privacy screen instantly; Easily remove the filter to share content or switch between matte or glossy sides; Combined thickness of the magnetic strips 0.04in (1.1mm)

• REDUCE EYE STRAIN: Computer monitor privacy screen blocks up to 51% of the harmful high energy blue light helping reduce digital eye strain & improve visual comfort during prolonged use; Light transmittance of 65% for better screen readability

• MATTE OR GLOSSY SIDES: Privacy shield features an anti-glare matte side for environments prone to glare, and a high-gloss side that helps retain color vibrancy, both sides protected by a fingerprint-resistant coating
