USB 2.0 to VGA Adapter, USB to VGA Monitor Converter for Windows, 1440x900 (no support for macOS/ChromeOS/Linux) - TAA

Product ID: USB2VGAE2

The USB2VGAE2 USB to VGA external video adapter is the perfect multi-monitor VGA solution for office applications and Internet browsing.

The USB video adapter features a small form factor and enables a USB 2.0 port to be used with a VGA port. A cost-saving multi-monitor or dual display option that can be used as an external graphics card for either laptop or desktop applications.

The USB video adapter can be used with up to four additional (five total) USB2VGAE2 USB video adapters, creating multiple VGA connections that can be used to further extend or mirror the desktop shown on the existing display - all without having to open the computer case to add extra video cards.

Application Diagram

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

• Add a secondary display adapter and extend your desktop display without taking apart your computer to install a new video card

• Add multiple (up to five) monitors / projectors to your computer setup using one USB2VGAE2 device for each additional display

• View large or multiple spreadsheets across multiple displays

• A compact, lightweight solution for traveling business associates using laptop PCs enabling connection to a secondary display

• Connect multiple monitors to a single computer to create engaging multimedia presentations

• Use the adapter to connect your PC to your television for showing family pictures and movies

• Increase productivity by running multiple applications on different screens, check your email on one display and work on a document in the other

• Great for researchers and writers offering the ability to have reference material on one display and a working document copy on the other

Features

• COMPATIBILITY: This adapter is only compatible with Windows and does not support macOS, ChromeOS or Linux; Works with all Windows X86/X64/ARM platforms: Intel, AMD, and Snapdragon X Copilot+ PC; Administrator rights are required to install the drivers

• EXTERNAL VIDEO ADAPTER: USB to VGA adapter lets you connect your laptop or desktop computer to a VGA monitor using a single USB Type-A port; 18in (46cm) cable length

• 1440x900 DISPLAY: Optimal performance at 1440x900 (higher resolutions supported) and ideal for use with 17" to 19" monitors or smaller

• USB POWERED: Drawing power from the USB port of your Windows laptop, this USB display adapter doesn't require any additional cords or plugs

• SCALABLE SOLUTION: With the ability to connect up to five adapters to one source, the external graphics adapter offers flexible setup options for future expansion
