

CHARGING AND OPERATION

- Battery Power Indicator Light
Green: Power over 40%. **Red:** Power of 40%-20%. **Red Flash:** Power under 20%.
- When the red light is flashing, the battery power is too low, please charge the flashlight soon to prevent damage to the battery. When fully charged, the light will stop flashing and turn green to prevent overcharging. Fully charged generally takes about 3-4 hours.
- Micro-USB charging way allows the flashlight to be safely charged via a car/wall adapter, computer or power bank.

12-MONTHS RETURN POLICY

Hoplet guarantees the flashlights against defects in material and workmanship. Flashlight products that are found to be defective under normal using. Within 12 months of purchase date will get refund or replacement without payment.
(Only for flashlights. No provide return or exchange service for accessories.)

This warranty does not cover damage caused by accident, unreasonable using or product alteration. Failure to follow the general maintenance directions could result in damage to your flashlights that may not be covered by the Hoplet warranty.
