EXPLOR® MODULAR RADIAL HEAD

Multiple Sizing Options for Optimal Patient Fit

- Three head diameters—20, 22 and 24mm
- Five head heights—10, 12, 14, 16 and 18mm
- Five stem sizes—5 x 22, 6 x 24, 7 x 26, 8 x 28 and 9 x 30mm
- Fully interchangeable parts allow for 75 different combinations

Exclusive Slide Design for Limited Joint Space Assembly

- No assembly required prior to implantation, allowing for *in situ* replacement
- Insertion method provides for preservation of radial collateral ligament
- Design reproduces natural articulation of radio-capitellar and radio-ulnar joints
