H.I.S

POLARIZED

POLARIZED COLLECTION

WELCOME

DIE H.I.S POLARIZED KOLLEKTION 2022/23 HÄLT WIEDER ZAHLREICHE HIGHLIGHTS FÜR SIE BEREIT.

Mit der neuen Ausgabe des H.I.S Polarized Katalogs können Sie sich wie gewohnt einen guten Überblick zur aktuellen Sonnenbrillenkollektion verschaffen. Die polarisierenden Sonnenbrillengläser aus hochwertigem Material mit 100 % UV-Schutz verschaffen besten Durchblick bei allen Aktivitäten. Viel Spaß beim Durchblättern und Auswählen der neuen H.I.S Polarized Modelle.

ONCE AGAIN, THE 2022/23 H.I.S POLARIZED COLLECTION HAS NUMEROUS HIGHLIGHTS IN STORE FOR YOU.

The new issue of the H.I.S Polarized catalogue provides you with its customary good overview of the current collection of sunglasses. The polarizing sunglasses lenses made of high quality material with 100 % UV protection offer superb vision in all activities. We wish you an enjoyable browse and selection of the new H.I.S Polarized models.

LA NOUVELLE COLLECTION H.I.S POLARIZED 2022/23 VOUS RESÉRVE À NOUVEAU DE NOMBREUX PRODUITS PHARES

Comme toujours, la nouvelle édition du catalogue H.I.S Polarized vous permet de vous faire rapide-ment une idée de la collection actuelle de lunettes de soleil. Les verres polarisants de ces lunettes de soleil, dont la matière de grande qualité offre une protection totale contre les UV, vous permettent une protection optimale clair, quelles que soient vos activités. Nous espérons que vous aurez plaisir à feuilleter le catalogue et à choisir parmi les nouveaux modèles H.I.S Polarized.

LA COLLEZIONE H.I.S POLARIZED 2022/23 PROPONE ANCHE QUEST'ANNO MOLTE INTERESSANTI NOVITÀ.

La nuova edizione del catalogo H.I.S Polarized consente di farsi un'idea precisa sulla nuova collezione di modelli da sole. Gli occhiali da sole, con lenti polarizzate in materiale pregiato e con protezione UV 100 %, permettono una visione perfetta in qualsiasi situazione. Vi auguriamo una piacevole lettura alla ricerca del modello H.I.S che fa per voi.

MIT FREUNDLICHEN GRÜSSEN, YOURS SINCERELY, CORDIALEMENT, CORDIALI SALUTI

Dietmar Hermus | Chief Sales Officer

LENSES

WARUM POLARISIERENDE SONNENBRILLENGLÄSER?

Wenn Lichtstrahlen auf eine ebene Fläche (Windschutzscheibe, Wasserfläche, Schnee, Asphalt ...) fallen, werden sie in alle Richtungen reflektiert. Vertikales Licht ermöglicht unserem Auge das Erfassen von Farben und Kontrasten, während das horizontale Licht für die störende Blendung verantwortlich ist. Polarisierende Gläser absorbieren diese „störenden" horizontalen Wellen und lassen nur das vertikale Licht durch. Für den Träger einer H.I.S Polarized Sonnenbrille ergeben sich dadurch folgende Vorteile:

- **bessere Sicht**
  – blendfreie Sicht
- **ausgezeichnete Farbwahrnehmung**
  – satte, kräftige Farben
- **erhöhte Kontraste**
  – bessere räumliche Wahrnehmung
- **erhöhte Konzentrationsfähigkeit**
  – deutlich reduzierte Ermüdung der Augen

WHY POLARIZED SUNGLASSES?

When light rays fall onto a flat surface (windscreen, water, snow, asphalt ...), they are reflected in all directions. Vertical light enables our eyes to perceive colours and contrasts whereas horizontal light is responsible for the disturbing glare. Polarized lenses absorb these „disturbing" horizontal waves and only allow vertical light through. Wearers of H.I.S Polarized sunglasses experience the following advantages:

- **better visibility**
  – visibility without glare
- **excellent colour perception**
  – saturated, powerful colours
- **increased contrast**
  – better spatial perception
- **increased concentration**
  – clearly reduced tiredness of the eyes

TAC-GLÄSER FÜR H.I.S POLARIZED

Die Gläser der H.I.S Polarized Sonnenbrillenkollektion bestehen aus einem polarisierenden Kern, der beidseitig von einer Tri-Acetat-Celluloseschicht (=TAC) umgeben ist.

- TAC-Gläser bieten **100 % Schutz** vor UV-Strahlen, sorgen für blendfreie Sicht, genaue Abbildung, verstärkte Kontraste und Sehschärfe sowie tiefe und satte Farben.
- Sie sind **temperatur- und feuchtigkeitsresistent** (kein Schrumpfen der H.I.S Polarized Gläser).
- Sie haben eine **erhöhte Festigkeit** und Stabilität.
- TAC-Gläser profitieren von ihrer **kratzfesten Beschichtung**.

H.I.S Polarized Sonnenbrillen bieten somit alle Vorteile eines polarisierenden Glases.

TAC-LENSES FOR H.I.S POLARIZED

The lenses of the H.I.S Polarized sunglasses collection consist of a polarized core surrounded on both sides by a tri-acetate cellulose layer (TAC).

- TAC lenses provide **100 % protection** against UV radiation, ensure glare-free vision, exact imaging, increased contrast and visual acuity as weil as deep and saturated colours.
- They are **temperature resistant** and in contrast to traditional polarized lenses also **resistant to moisture**, (i.e. the lenses of the H.I.S Polarized collection show negligible shrinkage and remain firmly in the sunglasses).
- They have **increased strength** and stability.
- TAC lenses benefit from their **scratch-resistant coating**.

H.I.S Polarized sunglasses offer all the advantages of polarized lenses.

TECHNOLOGY

H.I.S POLARIZED GLÄSER BESTEHEN AUS EINEM POLARISIERENDEN KERN UND SIND MIT EINER SPEZIELLEN FILTERSCHICHT VERSEHEN.

Die Brillengläser absorbieren die Lichtwellen selektiv und lassen somit horizontale Lichtwellen nicht zum Auge. Mit H.I.S Polarized Sonnenbrillen genießen Sie den ganzen Tag über blendfreie Sicht, eine ausgezeichnete Farbwahrnehmung sowie 100 % UV-Schutz.

H.I.S POLARIZED LENSES CONSIST OF A POLARIZING CORE AND HAVE A SPECIAL FILTER LAYER.

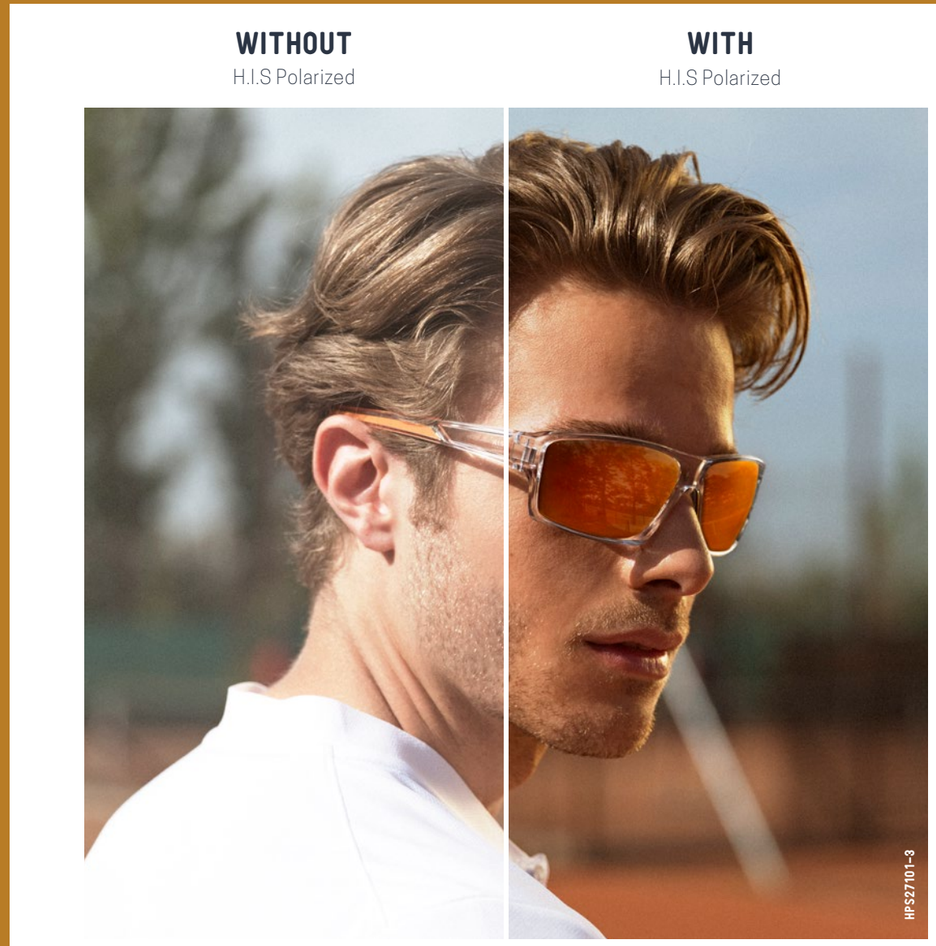

The spectacle lenses absorb the light waves selectively and thus do not allow horizontal light waves to reach the eye. With H.I.S Polarized sunglasses, you enjoy dazzle-free vision, excellent colour perception and 100 % UV protection all day.

LES VERRES H.I.S POLARIZED SONT COMPOSÉS D'UN NOYAU POLARISANT ET DOTÉS D'UNE COUCHE FILTRANTE SPÉCIALE.

Ce type de verre absorbe les ondes lumineuses de manière sélective et constitue une barrière entre les ondes lumi-neuses horizontales et l'œil. Des lunettes de soleil H.I.S Polarized vous assurent pendant toute la journée une vision sans éblouissement, une excellente perception des couleurs ainsi qu'une protection à 100 % contre les UV.

LE LENTI H.I.S POLARIZED SONO FORMATE DA UN FILTRO POLA-RIZZANTE E DA UNO SPECIALE STRATO ASSORBENTE.

Gli occhiali da sole assorbono in modo selettivo le onde luminose e bloccano le onde orizzontali. Con gli occhiali da sole H.I.S Polarized la vostra vista non sarà affaticata dai riflessi, con massima nitidezza di colori e protezione 100 % dai raggi UV per tutto il giorno.

SUN TOPPERS

HPS38107-1

SUN TOPPERS

FUNCTION

OVER THE TOP. UNDER THE SUN – DIE POLARISIERENDE SONNEN-BRILLE. EINFACH ÜBER DER BRILLE ZU TRAGEN.

Der effiziente Sonnenschutz speziell für Brillenträger. Tragen Sie die Sun Toppers Sonnenbrille einfach und bequem über Ihrer Korrektionsfassung. Die polarisierenden Gläser schützen Ihre Augen ideal – besonders am Wasser, am Berg, oder im Straßenverkehr.

OVER THE TOP. UNDER THE SUN. – POLARIZED SUNGLASSES. SIMPLY WEAR THEM OVER YOUR GLASSES.

Effective sun protection especially for eyeglass wearers. Just wear Sun Toppers sunglasses easily and conveniently over the frame of your glasses. The polarized lenses optimally protect your eyes – particularly at the shore, on mountains or on the road.

OVER THE TOP. UNDER THE SUN. LES LUNETTES DE SOLEIL POLARISANTES. À PORTER TOUT SIMPLEMENT PARDESSUS LES LUNETTES DE CORRECTION

La protection efficace contre le soleil – spécialement conçue pour les porteurs de lunettes. Portez les lunettes de soleil Sun Toppers simplement et confortablement pardessus votre monture corrective. Les verres polarisants protègent vos yeux de manière idéale – plus particulièrement au bord de l'eau,en montagne ou sur la route.

OVER THE TOP. UNDER THE SUN. L'OCCHIALE DA SOLE CON LENTI POLARIZZATE DA APPLICARE SEMPLICEMENTE SULLE LENTI CORRETTIVE.

Efficiente protezione solare per portatori di occhiali. Indossate i Sun Toppers direttamente sulle lenti protettive: in modo semplice e comodo. Le lenti polarizzate assicurano una protezione ideale – in particolare al mare, in montagna o nel traffico stradale.
