

H.I.S
POLARIZED

POLARIZED SUNGLASSES

POLARIZED COLLECTION

DIE NEUE H.I.S POLARIZED KOLLEKTION 2024/25 HÄLT WIEDER ZAHLREICHE HIGHLIGHTS FÜR SIE BEREIT

Mit der neuen Ausgabe des H.I.S Polarized Katalogs können Sie sich wie gewohnt einen guten Überblick über die aktuelle Sonnenbrillenkollektion verschaffen. Die polarisierenden Sonnenbrillengläser aus hochwertigem Material mit 100 % UV-Schutz verschaffen besten Durchblick bei allen Aktivitäten. Viel Spaß beim Durchblättern und Auswählen der neuen H.I.S Polarized Modelle.

ONCE AGAIN, THE 2024/25 H.I.S POLARIZED COLLECTION HAS NUMEROUS HIGHLIGHTS IN STORE FOR YOU

The new issue of the H.I.S Polarized catalogue provides you with its customary good overview of the current collection of sunglasses. The polarizing sunglasses lenses made of high quality material with 100 % UV protection offer superb vision in all activities. We wish you an enjoyable browse and selection of the new H.I.S Polarized models.

LA NOUVELLE COLLECTION H.I.S POLARIZED 2024/25 VOUS RÉSERVE À NOUVEAU DE NOMBREUX PRODUITS PHARES

Comme toujours, la nouvelle édition du catalogue H.I.S Polarized vous permet de vous faire rapide-ment une idée de la collection actuelle de lunettes de soleil. Les verres polarisants de ces lunettes de soleil, dont la matière de grande qualité offre une protection totale contre les UV, vous permettent une protection optimale clair, quelles que soient vos activités. Nous espérons que vous aurez plaisir à feuilleter le catalogue et à choisir parmi les nouveaux modèles H.I.S Polarized.

LA COLLEZIONE H.I.S POLARIZED 2024/25 PROPONE ANCHE QUEST'ANNO MOLTE INTERESSANTI NOVITÀ

La nuova edizione del catalogo H.I.S Polarized consente di farsi un'idea precisa sulla nuova collezione di modelli da sole. Gli occhiali da sole, con lenti polarizzate in materiale pregiato e con protezione UV 100 %, permettono una visione perfetta in qualsiasi situazione. Vi auguriamo una piacevole lettura alla ricerca del modello H.I.S che fa per voi.

WARUM POLARISIERENDE SONNENBRILLENGLÄSER?

Wenn Lichtstrahlen auf eine ebene Fläche treffen, werden diese in alle Richtungen reflektiert. Polarisierende Sonnenbrillengläser absorbieren die störenden Reflexionen und ermöglichen ein detailliertes und kontrastreiches Sehen auch bei schwierigen Lichtverhältnissen. Die Gläser der H.I.S Polarized Sonnenbrillenkollektion bestehen aus einem polarisierenden Kern, der beidseitig von einer Tri-Acetat-Celluloseschicht (TAC) umgeben ist. TAC-Gläser sind temperatur- und feuchtigkeitsresistent und verfügen über eine erhöhte Festigkeit und Stabilität sowie eine kratzfeste Beschichtung.

Vorteile:

- 100 % UV-Schutz
- Blendfreie Sicht
- Ausgezeichnete Farbwahrnehmung
- Verstärkte Kontraste
- Bessere Sehschärfe

WHY POLARIZED SUNGLASSES?

When light rays fall onto a flat surface, they are reflected in all directions. Polarized sunglasses lenses absorb the disruptive reflections and make detailed and high-contrast vision possible, even in difficult light conditions. The lenses of the H.I.S. Polarized sunglasses collection consist of a polarized core that is surrounded on both sides by a triacetate cellulose (TAC) coating. TAC lenses are resistant to temperature and moisture and have increased strength and stability as well as an anti-scratch coating.

Benefits:

- 100 % UV protection
- Glare-free vision
- Excellent colour perception
- Enhanced contrasts
- Improved visual acuity

POURQUOI DES LUNETTES DE SOLEIL À VERRES POLARISANTS?

Lorsque les rayons lumineux rencontrent une surface plane, il se réfléchissent dans tous les sens. Les lunettes de soleil à verres polarisants absorbent les reflets parasites, permettant ainsi une visibilité détaillée et contrastée, même dans des conditions de luminosité difficiles. Les verres de la collection „lunettes de soleil polarisées H.I.S Polarized“ sont constituées d'un noyau polarisant revêtu sur chaque face d'une couche de cellulose tri-acétate (TAC). Les verres TAC sont résistants aux températures et à l'humidité, ils possèdent une résistance et une stabilité accrues, et un revêtement anti-rayures.

Les avantages :

- Une protection de 100 % contre les UV
- Une visibilité sans éblouissement
- Une excellente perception chromatique
- Un contraste accru
- Une meilleure acuité visuelle

PERCHÉ SCEGLIERE LENTI POLARIZZATE PER OCCHIALI DA SOLE?

Quando i raggi luminosi colpiscono una superficie piana, vengono riflessi in tutte le direzioni. Le lenti polarizzate per occhiali da sole assorbono i riflessi fastidiosi e consentono una visione nitida e ricca di contrasto anche in cattive condizioni di luce. Le lenti della collezione di occhiali da sole H.I.S Polarized sono costituite da un nucleo polarizzante, rivestito su entrambi i lati da uno strato di triacetato di cellulosa (TAC). Le lenti in TAC sono resistenti alla temperatura e all'umidità, sono molto robuste e stabili e sono dotate di un trattamento antigraffio.

Vantaggi:

- Protezione completa dai raggi UV
- Visione senza abbagliamento
- Eccellente percezione dei colori
- Elevato contrasto
- Miglioramento dell'acuità visiva

SUN TOPPERS

HPS/4910-1

SUN TOPPERS

OVER THE TOP. UNDER THE SUN. DIE POLARISIERENDE SONNEN-BRILLE. EINFACH ÜBER DER BRILLE ZU TRAGEN.

Der effiziente Sonnenschutz speziell für Brillenträger. Tragen Sie die Sun Toppers Sonnenbrille einfach und bequem über Ihrer Korrektionsfassung. Die polarisieren-den Gläser schützen Ihre Augen ideal – besonders am Wasser, am Berg, oder im Straßenverkehr.

OVER THE TOP. UNDER THE SUN. POLARIZED SUNGLASSES. SIMPLY WEAR THEM OVER YOUR GLASSES.

Effective sun protection especially for eyeglass wearers. Just wear Sun Toppers sunglasses easily and conveniently over the frame of your glasses. The polarized lenses protect your eyes – particularly at the shore, on mountains or on the road.

OVER THE TOP. UNDER THE SUN. LES LUNETTES DE SOLEIL POLARIŚANTES. À PORTER TOUT SIMPLEMENT PARDESSUS LES LUNETTES DE CORRECTION

La protection efficace contre le soleil – spécialement conçue pour les porteurs de lunettes. Portez les lunettes de soleil Sun Toppers simplement et confortablement pardessus votre monture corrective. Les verres polarisants protègent vos yeux de manière idéale – plus particulièrement au bord de l'eau,en montagne ou sur la route.

OVER THE TOP. UNDER THE SUN. L'OCCHIALE DA SOLE CON LENTI POLARIZZATE DA APPLICARE SEMPLICEMENTE SULLE LENTI CORRETTIVE.

Efficiente protezione solare per porta-tori di occhiali. Indossate i Sun Toppers direttamente sulle lenti protettive: in modo semplice e comodo.Le lenti polarizzate assicurano una protezione ideale – in particolare al mare, in montagna o nel traffico stradale.
