DIFFUSORE WIFI DA INCASSO

FEATURES

• Max Power	3 / 6 / 12W
• Woofer / Tweeter	6,5”
• Tension	100V
• Mounting hole	165 mm diameter
• Dimensions	190 x 190 x 150 mm
• Weight	1,6 Kg

WI-FI TECHNOLOGY ... WHY ?
TECNOLOGIA WIFI ... PERCHE' ?

Unlike Bluetooth technology, the wifi system allows to connect an unlimited number of speakers. Each speaker will be connected to the local wifi and will be controlled individually or in groups, directly from the application on smartphones and tablets. It is the most technological solution in the field PA system. The application is compatible with the most common music platforms such as Spotify.

A differenza della tecnologia Bluetooth, i diffusori wifi possono essere collegati senza limiti di numero. Ogni diffusore si connetterà al wifi locale e verrà comandato singolarmente o in gruppo, direttamente dalla applicazione su smartphone e tablet. Rappresenta quanto di più tecnologico nel campo della filodiffusione. Dalla applicazione sono supportati i più diffusi programmi musicali quali ad esempio Spotify.

IL PRIMO SISTEMA DI AMPLIFICAZIONE WIRELESS

THE FIRST SYSTEM OF WIRELESS AMPLIFICATION

Transmitter speaker (TX)

Receiver speaker (RX)

BM 108TX
8” TRANSMITTER SPEAKER
DIFFUSORE TRASMITTENTE 8”

BM 108RX
8” RECEIVER SPEAKER
DIFFUSORE RICEVENTE 8”

A great innovation in the field of sound diffusion: it is now possible to connect several speakers without using any kind of cable. The main speaker (TX) can transmit the signal to a number of receiver speakers (RX). Thanks to the internal rechargeable battery you can use them even without power cable. Available in two versions: with 8” or 15” woofer.

Una grande novità nel campo della diffusione sonora: finalmente è possibile collegare più diffusori senza utilizzare alcun cavo. Il diffusore principale (TX) è in grado di trasmettere il segnale a più diffusori riceventi (RX). Grazie alla batteria ricaricabile interna, potrete evitare persino di collegare il cavo di alimentazione.
Disponibili in versione con woofer da 8” o 15”

Rechargeable Battery

FREE FROM ANY KIND OF CABLE
The exclusive 2.4GHz transmitting system and the internal battery make these speakers independent from any kind of cable.

READY IN ONE SECOND
It is enough to turn on the speakers to connect them together.

EXPANDABLE SYSTEM
The transmitter speaker can operate in full autonomy. If necessary it is possible to pair up to 20 optional receiver speakers to the same transmitter.

LIBERI DA OGNI TIPO DI CAVO
L’esclusivo sistema di trasmissione 2.4GHz e la batteria interna rende questi diffusori indipendenti da ogni tipo di cavo.

PRONTE IN UN SECONDO
Basta accendere i diffusori per collegarli tra loro.

SISTEMA ESPANDIBILE
Il diffusore trasmittente può operare in completa autonomia. All’occorrenza, ad una trasmittente possono essere abbinati fino a 20 diffusori riceventi opzionali.

MICROPHONE STEREO HEADPHONE

CUFFIA STEREO CON MICROFONO

High quality stereo headphone made of soft and hypoallergenic materials allowing to use it for a long time. It is very comfortable to use, thanks to the adjustable headband and to the single cable endowed with a small microphone and a key to answer incoming calls when connected to a smartphone.

Cuffia stereofonica di ottima qualità realizzata con materiali soffici e anallergici che ne consentono l'utilizzo per tempi prolungati. L'archetto è regolabile e dispone di un solo cavo per il massimo confort. E' presente un piccolo microfono e un tasto per rispondere alle chiamate in arrivo quando connesso a smartphones.
